Smart. Easy. Reliable.

DEVIreg™ Touch – Intelligent floor heating control

Innovation for you – with you

Before our engineers began developing DEVIreg™ Touch, we asked you as a professional installer, what features you considered most important when it comes to floor heating control. Here is what you told us you wanted most from a modern electric heating thermostat:

- Simple installation, setup and operation
- Intuitive and understandable, especially for your customers
- Make your business life easier and reduce the need for service visits

That is why our engineers created the very first touchscreen thermostat for electric underfloor heating: DEVIreg™ Touch. It is smart, easy, reliable and looking so good that you and your customers will instantly love using it. But do not take our word for it – try it for yourself!

Scan the QR code to download our app on your smartphone or go to touch.devi.co.uk to experience DEVIreg™ Touch online.

Follow the wizard

Select the relevant option

After just six inputs, DEVIreg™ Touch is ready to use!

Smart details – major customer benefits

DEVIreg™ Touch

- The smartest, best looking thermostat on the market
- Perfect comfort whenever needed – economic savings whenever possible
- Energy-saving features reduce heating costs
- 5-year warranty, including online replacement service
- Ideal replacement for other thermostat brands - makes retro-fitting easy

Features to reduce energy waste

- Easy and flexible timer programming
- 3rd generation adaptive timer optimises both start and end of comfort periods
- Energy consumption read-out: awareness is the key to maximizing savings
- Open window detection automatically switches off the floor heating
- Easy access 'smart' button for temporary energy-saving settings

Lasting customer satisfaction

Great looking, easy to use, smart energy saving features and guaranteed floor heating comfort when it is needed. What customer does not value these? Show your customers what DEVIreg™ Touch can do and they will want one for sure. While they are thinking about it, you can leave them our end-user brochure and remind them to visit our website: touch.devi.co.uk

Simply easy

DEVIreg™ Touch is built around a simple touchscreen with no buttons or complex navigation menus. For maximum convenience and efficiency, the software is divided into two 'zones':

Zone 1: The set-up zone that includes all one-off settings performed by you as a professional

Zone 2: The daily operation zone where end-users define their preferences

Fast and accurate set-up

To make your life as easy as possible, we have given DEVIreg™ touch a simple installation wizard for first time set-up. There are no technical details to look up: just six easy fact-based inputs to define such as 'flooring', 'room type' or 'timer'.

For each of these, the available options are already listed. All you need to do is select

and confirm. Once you have completed the set-up wizard, all detailed technical settings are automatically defined. In just a few seconds, the heating system will be set up to ensure perfect comfort and safe operation.

Try it right away

Seeing is believing

That is why we made a virtual version of the DEVIreg™ Touch – an exact copy of the actual product. Apart from helping you to quickly learn how easy it is to set-up, programme and use the thermostat, the virtual DEVIreg™ Touch tool is also the ideal way to show and convince your customers that they are making the right choice.

Online or on your smartphone

The virtual DEVIreg™ Touch tool comes in two versions:

- 1) A website version at touch.devi.co.uk
- 2) An app version for your smartphone, available from the App store or Google play

You can use the app version of DEVIreg™ Touch to interact with your customers, show how it works and how easy it really is by using your smartphone or tablet.

Among many other benefits, this unique tool allows you to perform remote troubleshooting using a digital code for each customer's actual system. So if they have any questions after installation, you can answer them or set them right without needing to revisit your customer's home! That is what we call easy – remote – support!

Reliable floor heating comfort

DEVireg™ Touch is the first thermostat to be offered with a comprehensive 5-year warranty. For the best possible floor heating comfort, combine DEVireg™ Touch with our thin and easy-fit DEVimat™ heat mats. If you need more flexibility during installation, simply choose our strong and highly flexible DEViflex™ heating cables. With a unique **20-year warranty** on our DEVimat™ and DEViflex™ products – including installation and floor material costs – DEVI is the most reliable choice you can make.

Complete peace of mind

No matter how good DEVireg™ Touch is, real comfort only comes from a reliable, easy-to-install and high-quality floor heating system. In the unlikely event of a fault, you or your customer can visit touch.devi.co.uk to find an online replacement registration form. Fill it out and we will send you a new DEVireg™ Touch thermostat – even before we receive the old one! There is no need for you to contact your wholesaler or other third party. Simple. Fast. Service.
